MARITAL ISSUES - PARENTING - ELDER CARE - JOB LOSS - BEREAVEMENT

For parishioners struggling with these and other issues, help is available through the Parish Counseling Network (PCN). PCN provides parishioners throughout the Archdiocese of New York with access to short-term professional counseling at convenient locations throughout the region at a significantly reduced fee.

A NETWORK OF PROFESSIONALS

Parish counseling network offers a network of more than 120 licensed mental health professionals to help parishioners through issues and crises that can be successfully addressed by brief counseling support. Experienced clinicians, working in partnership with Catholic Charities, work from private offices to provide counseling support for a wide-array of difficulties to a diverse clientele. Many of the practitioners are bilingual in Spanish and English. Additional languages may be available upon request.

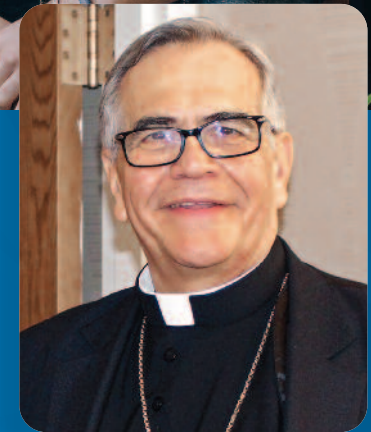

AFFORDABLE ASSISTANCE

Parishioners are eligible for a maximum of six counseling sessions through the Parish Counseling Network. The fee for each session is a co-pay of just \$10. Sessions are provided face-to-face by clinicians in areas convenient to parishioner homes or parishes.

HELPING PASTORS PROVIDE CARE

PCN strives to help pastors secure the most effective and appropriate care for their parishioners. The Parish Counseling Network was established in order to provide counseling in addition to the valuable pastoral counseling received through the church. If it is determined by the PCN clinician that short-term counseling is not an effective treatment approach, as with severe or persistent mental illness, a more appropriate referral will be provided. The parishioner may be referred to a therapist providing longer term individual counseling, to a hospital or treatment center, or specialized clinic.

**BISHOP DOMINICK LAGONEGRO,
VICAR OF HUDSON WEST VICARIATE
(ORANGE, ROCKLAND, SULLIVAN, AND ULSTER)**

"The priests who serve our parishioners work hard to look after the spiritual well-being of our people. Often occasions arise that are beyond the scope of the priest, especially when people are struggling with personal relationships. The Parish Counseling Network helps fill the gap by providing parishes with additional resources to care for the short-term needs of those struggling with the issues and crises of everyday life. I have offered this service to many people and they have always found that PCN was a great help in their time of need. I highly recommend this service to our priests and parishioners."

PROVIDING HELP. CREATING HOPE.

Parish counseling network provides low-cost, short-term counseling for parishioners referred by their local parish. Individuals and families seeking services other than counseling may be referred to one of Catholic Charities' regional office locations (see reverse). Available assistance includes emergency food and shelter, immigration services, case management, addiction services, and other program support.
